Standards & Labeling

The Standards & Labeling Programme (<https://beestarlabel.com/>) is one of the major thrust areas of BEE. A key objective of this scheme is to provide the consumer an informed choice about the energy saving and thereby the cost saving potential of the relevant marketed product. The scheme targets display of energy performance labels on high energy end use equipment & appliances and lays down minimum energy performance standards. Training and Awareness

Retailers Training Programme is an initiative to reach out to a large consumer audience to spread awareness on the saving from star rated appliances. BEE have partnered with National Power Training Institute to disseminate knowledge among the retailers to briefly explain and convince customers to choose an energy efficient appliance. 18 such programmes has been organized in 6 metro cities i.e. New Delhi, Kolkata, Bengaluru, Mumbai, Chennai and Hyderabad and more than 2000 retailers has participated in this programme. This programme will not only increase the penetration of star rated products, it will also bring remarkable improvement in energy efficiency rates in India.
